Update/Edit Page (Screenshot)

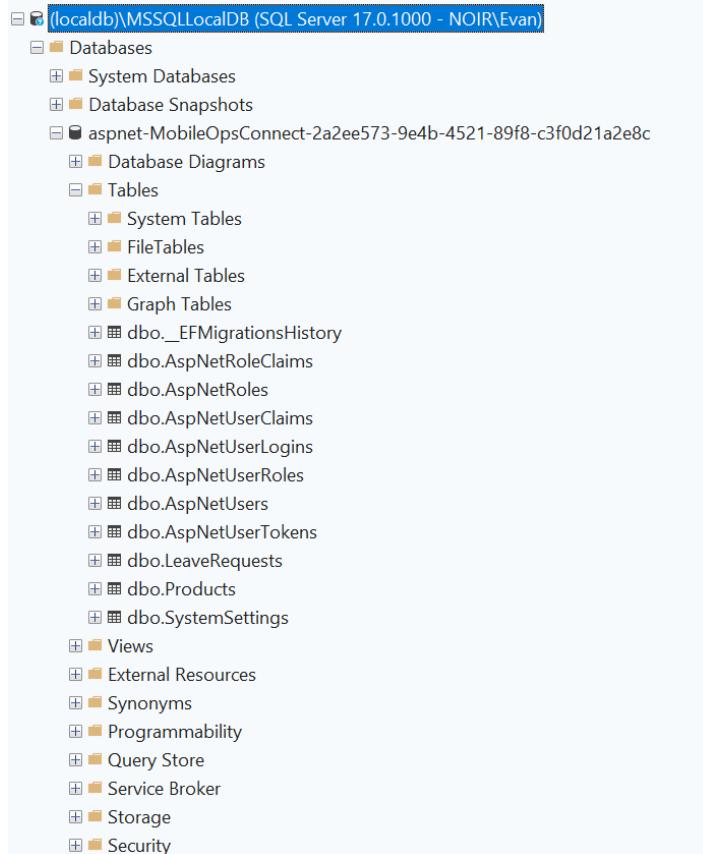

The screenshot shows a product editing interface. At the top, there's a navigation bar with links for MobileOpsConnect, Dashboard, Accounting, and Privacy. On the right, it says "Hello charlie@mobileops.com" and "Logout". Below the navigation is a purple header bar with tabs for "Inventory Module" and "Edit Product". The main area has a purple title bar with "Edit Product" and a subtitle "Update product details and pricing". A "Product Information" section contains fields for Identification (SKU/Barcode: Apple Smartphone, Product Name: iPhone 11), Classification (Category: Phones), and Stock & Pricing (Stock Quantity: 200, Unit Price: 35000.00). At the bottom are "Save Changes" and "Cancel & Back to List" buttons.

Display Records - Source Code (Screenshot)	 <p>The screenshot shows the 'Manage Leave Requests' interface. At the top, there's a navigation bar with 'MobileOpsConnect', 'Dashboard', 'Accounting', and 'Logout'. Below it, a header bar displays '40 Mobile Actions', '12 Total Requests', '1 Pending', and '12 Archived'. The main area has a purple header 'Manage Leave Requests' with the sub-header 'Review, approve & manage employee leave applications'. It features a 'Leave Overview' section with four status boxes: 'TOTAL 13' (Active), 'PENDING 1' (Pending), 'ARCHIVED 0' (Archived), and 'HISTORY 12' (History). Below this is a 'Leave Directory' section with tabs for 'Active Requests' (selected) and 'Pending Requests'. A table lists leave records with columns for Employee, Type, Dates, Reason, Status, and Filed. One record is shown in detail: 'mobileops.com' (Employee), 'Emergency Leave' (Type), '2023-10-10' to '2023-10-11' (Dates), 'Requesting leave 3' (Reason), 'Pending' (Status), and 'Not Filed' (Filed). At the bottom, there are buttons for 'Back to Dashboard' and 'Privacy Policy'.</p>
Display Records - Source Code (Screenshot)	

Database – SQL Server (Local) Screenshot

Database – Deployed/Online

Screenshot

The screenshot displays the Azure portal interface for managing a database named db41409. The top navigation bar shows 'MonstraASP.net' and 'db41409.databaseasp.net'. The main area is divided into two tabs: 'Overview' and 'Local access | Websites | MSSQL access details for Websites'. The 'Overview' tab shows database settings like status (Enabled), type (MSSQL), and compatibility (SQL Server 2022). It also includes sections for users and access, processes, and disk quota. Below this is a row of quick links: BACK to database list, Tables list, Users and access, Processes list, Tasks (Planned jobs), Run T-SQL execute script, Resources management, Backups management, Upgrade (Transfer / ScaleUp), and WebMSQL with interface. The 'Database files overview' section lists file details: Type (Data, Log), Name (db41409, db41409_log), File name (db41409.mdf, db41409_log.ldf), Size used (8 MB, 8 MB), and Size limit (1024 MB, 5120 MB). The 'Database usage' section contains a line chart showing resource usage over time from February 14 to February 19, 2026. The chart tracks CPU (red), Disk I/O (blue), and Memory (yellow) usage.
